

## Our Mission

Wells of Life is a 501(c)(3) faith-based nonprofit organization that provides safe access to clean, sustainable drinking water in the communities of rural Uganda. Our desire is to improve quality of life, one well at a time. We offer 3 main programs for you to support: **New Wells**, **Operation Restoration**, and the **Healthy Village Program**. When you give clean water, you give time, opportunity, and empowerment. When a community receives safe access to clean water, they are given the resources of health, hygiene, and time to create a more sustainable society. Thanks to our supporters, our wells are collectively serving 1.3 Million people and counting.

PROVIDING DIGNITY & HEALTH

# School Latrines

## Latrines: The Foundation of Dignity

Lacking access to proper sanitation facilities, individuals are forced to relieve themselves in fields, bushes, or other open spaces. This not only poses serious health risks but also strips individuals of their dignity and privacy. Open defecation contaminates water sources, spreads disease, and perpetuates a cycle of poverty. Children, in particular, are vulnerable to the consequences, facing increased risk of diarrheal diseases, malnutrition, and stunted growth. Moreover, the practice undermines community well-being, hindering economic development and perpetuating inequality. But there's hope. **Latrines offer a simple yet powerful solution.** By providing safe and hygienic facilities, we prevent the spread of disease, protect the environment, and restore dignity to individuals and communities. Latrines empower individuals to take control of their health and well-being, paving the way for a brighter future.

## Urgent Need for Action

This year, 10 out of the 20 schools we support are still without proper latrines. This underscores the urgent need for intervention. With your support, we can ensure that every child has access to a safe and private place to answer nature's call. Together, we can make a difference. Join Wells of Life in our mission to provide dignity, health, and opportunity to communities in need. Your contribution of \$8,600 can fund the construction of a latrine at a school, changing lives for the better. Together, let's build a healthier, more dignified world.

**LATRINE FOR 1 SCHOOL: \$8,600**  
**LATRINES FOR 5 SCHOOLS: \$40,000**

## Why Latrines Matter

Latrines are more than just structures – they're symbols of health, dignity, and opportunity. In schools, they play a crucial role in improving attendance, attention, and completion rates among children. Yet, too many schools lack adequate sanitation facilities, leaving students vulnerable to illness and embarrassment.

An investment into a Girl's Latrine for a school comes with four stalls, one handicap stall, and one washroom for girls.
