

# ABOUT

Wells of Life is a 501(c)(3) non-profit Christian organization whose mission is to provide rural Ugandans access to safe, clean water through the installation or restoration of sustainable borehole water wells and WASH (water, sanitation, and hygiene) educational programs.

Our wells are collectively serving more than 1 million people.

## DEDICATING A MEMORIAL WELL

Give the gift of life-giving water to a community in memory of a loved one.

LIVING LEGACY

## FOREVER MEMORIALIZED

When you donate a well in honor of a loved one, you give life to an entire community. Every memorial well receives a dedication where the life of your loved one will be celebrated! A plaque will be placed to honor their life for years to come. The family will be provided with a beautiful photo book of the installation and dedication of the well that is sure to capture the impact of this living memorial.

## CREATING A LIVING LEGACY

A memorial well is a beautiful way to honor a loved one, a way to celebrate their life by providing an entire community with a lifeline of hope.

Wells of Life will drill a clean water well (borehole) that will provide access to clean and safe drinking water to a community up to 1,000 people.

**Memorial Well Cost: \$4,000**

## MORE THAN WATER

When you give clean water you give time, opportunity, education, and empowerment.

In Africa alone, women and children spend 40 billion hours each year walking through isolated, dangerous rural areas to collect disease-ridden water for their families.

Not only does clean water save lives, but it gives children the opportunity to receive an education and women an opportunity to grow food, earn income, and provide for their families. When a community receives clean water, they are given the resources of health, hygiene, and time to create a more sustainable community.

“For your deceased friend or family member ‘life is changed not taken away’. Instead they are giving LIFE and HEALTH to the people of Uganda through the medium of water“

- Sister Joan Hogan
